

# cVX POWERED BY CISCO

TetraVX's cVX offering is a cloud-based Cisco unified communications solution built with your business objective in mind. Get market-leading features delivered to you in the cloud. Whether you need to control costs, improve productivity, or boost innovation, cVX has everything you need and want in a cloud phone system.

## Enterprise Unified Communications & Collaboration

### Corporate Telephony

Deploy a cloud-hosted PBX for full-featured, enterprise-grade IP telephony for any size organization.

### Unified Communications

Enjoy voice and video calling, mobility, unified messaging, presence, and chat on any device.

### Conferencing

Engage co-workers, customers, and partners. Experience better meetings with high-definition video and screen sharing.

### Contact Center

Create differentiated customer experiences with omnichannel customer care.

### Rapidly Provision & Deploy

cVX enables organizations anywhere to rapidly provision and deploy a fully managed and full-featured Cisco UC solution with a simply monthly fee. No need to purchase your own licensing or hardware.

### Leverage Existing Cisco Endpoints

Are you ready to move to the cloud, but not ready to lose your existing Cisco investments? cVX works with your existing Cisco IP phones and Cisco video endpoints.

### Hybrid Deployment Options

Our cVX solution can seamlessly integrate with any on-premises Cisco solutions to allow for a seamless, staggered migration that can slowly phase out aging infrastructure.

## TetraVX Cisco Expertise

TetraVX was the first certified Cisco Unified Communication Manager (CUCM) partner in the Midwest in 2000 and has been strategically invested in the Cisco product suite since. As a Gold level partner, TetraVX has demonstrated a broad expertise across enterprise networks, collaboration, data center, and IP Next-Generation Network.

## WHY WORK WITH TETRAVX

TetraVX understands every leg of the unified communications journey, providing an array of products and services to fit your unique business needs. Whether you're deploying your first UCC system or have existing infrastructure you're looking to leverage, we'll work with you to develop a tailor-fit solution made just for you.

### UCC READINESS ASSESSMENT

Understand the impact your new solution will have on your network and validate its performance with the additional workload.

### CARRIER & CONNECTIVITY

As a CLEC and ISP, we can provide connectivity in combination with any of our multiple UCaaS offerings.

### USER ADOPTION

We deliver custom communication and training plans built to drive a positive user experience and ultimately increase user adoption.

### INTEGRATED COLLABORATION SERVICES

In the modern age of a digital workplace, we provide state of the art AV systems to create more efficient workflows and workspaces.
