Microsoft Room Kits

TetraVX room kits are a hassle-free way to bring collaboration technology to your workspace. Delivered as a set monthly fee, our room kits can help your team save time and money.

- **No Upfront Expenses**
  
  Our room kits are provided in an as-a-Service model, meaning you won’t have to worry about expensive upfront costs.

- **License Management**
  
  Our complete room kit bundles include all necessary licensing.

- **End-User Support**
  
  We provide unlimited email, phone, and onsite support to troubleshoot technical issues and assist with end-user training.

- **Installation**
  
  Our room kits are easy to install, however we know not all teams have the time or staff to do so. Because of that we offer complete installation of your new hardware*.

- **Monitoring & Management**
  
  Our team monitors your room kit and provides hardware maintenance so your team doesn’t have to.

- **Technology Refreshes**
  
  Stay up to date with the latest and greatest with our technology refreshes. We update your hardware each new term as needed to remain current.

Crestron Flex B-Series Room Kit

---

*See [www.tetravx.com/roomkits](http://www.tetravx.com/roomkits) for additional information and installation requirements.
Crestron Flex B-Series

Crestron Flex is an enterprise grade solution, engineered in partnership with Microsoft to integrate seamlessly into any Microsoft Teams or Skype for Business deployment. The Crestron Flex system provides a single display, video conference room solution with one touch simplicity.

Present, call, conference, and collaborate — all through a single smart soundbar and 10.1 in. tabletop touch screen

Connects to the network with the latest security standards

**55” Commercial-Grade Monitor**
65” and 75” upgrades are available.

**UC Video Conference Smart Soundbar**
Adaptive beam forming technology with 15’ range and amplified speakers to support a range of HD audio.

**UC Video Conference Smart Camera**
The intelligent 4K camera provides light optimization, auto white balance, and automatic lossless digital zoom to actively frame participants.

**10.1” Table Top Touch Screen**
A space-saving wall, lectern, tabletop, or rack mount touch screen featuring edge-to-edge glass and advanced HD Smart Graphics® technology.

**UC Engine Assembly**
All the central components of a Crestron Flex UC system, assembled together on a bracket and ready to mount behind the display device.

**Extron HC 404 Remote HDMI**
The Extron HC 404 combines video switching, scaling, signal extension, and system control into a transmitter and receiver pair.

Pricing based on a 36-month contract and is subject to change without notice. Taxes and fees may apply.
