

nVX Messaging

Benefit from peer-to-peer and peer-to-customer collaboration with messaging, task management, file sharing, file storage, and more.

ENABLE CUSTOMERS WITH COLLABORATION

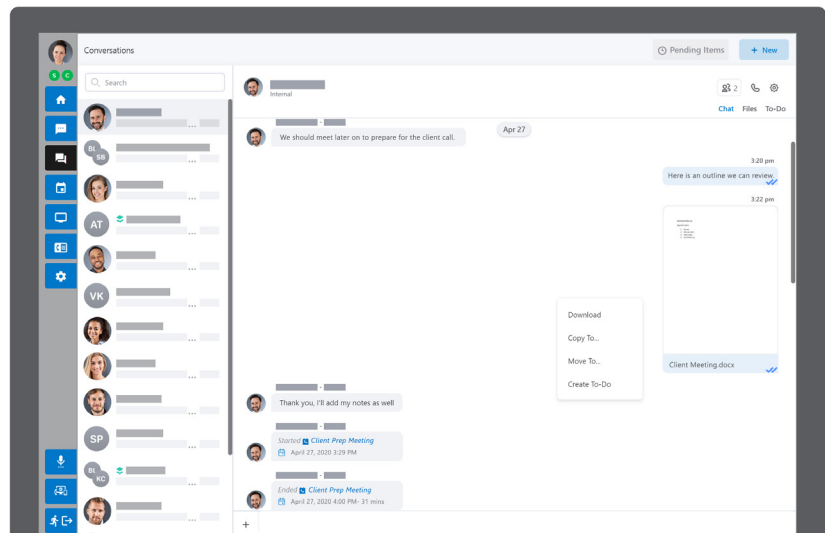

Invite external users to securely participate in projects, leveraging messaging, task management, and file sharing to stay connected and collaborate efficiently from a single portal.

1:1 AND MULTI-PARTY COLLABORATION

Whether you're looking to enable collaboration amongst coworkers, customers, or large groups of stakeholders, nVX makes it easy to bring people together.

TASK MANAGEMENT

No longer will action items get drowned out in the noise of the larger conversation. Isolate messages as tasks with due dates, assignees, reminders, and descriptions.
